Human Chorionic Gonadotrophin Reference standard

Cat. No. hCG-188H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	This consists of a batch of micro-ampoules containing highly purified human chorionic gonadotrophin (hCG) for radioiodination. The purification and characterization of this batch of hCG is described by Canfield and Ross (1976).
Species	Human
Notes	This preparation is not for administration to humans. The preparation contains material of human origin, and either the final product or the source materials, from which it is derived, have been tested and found negative for HBsAg, anti-HIV and HCV RNA. As with all materials of biological origin, this preparation should be regarded as potentially hazardous to health. It should be used and discarded according to your own laboratorys safety procedures. Such safety procedures should include the wearing of protective gloves and avoiding the generation of aerosols. Care should be exercised in opening ampoules or vials, to avoid cuts.
