

## Native Chicken ovalbumin

**Cat. No.** OVAL-140C    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                       |                                                                           |
|-----------------------|---------------------------------------------------------------------------|
| <b>Species</b>        | Chicken                                                                   |
| <b>Source</b>         | Chicken Egg White                                                         |
| <b>ProteinLength</b>  | Full length native chicken egg ovalbumin                                  |
| <b>Form</b>           | Liquid                                                                    |
| <b>Purity</b>         | >95% (SDS-PAGE)                                                           |
| <b>Applications</b>   | Western blotting,ELISA,etc                                                |
| <b>Storage</b>        | Aliquot and store at -20°C or -80°C. Avoid repeated freeze / thaw cycles. |
| <b>Storage Buffer</b> | PBS                                                                       |

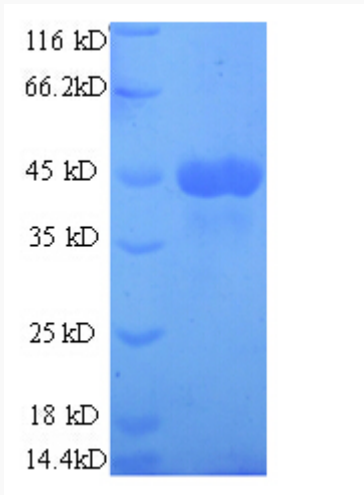

### GENE INFORMATION

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | OVAL ovalbumin (SERPINB14) [ Gallus gallus ]                                                                                |
| <b>Official Symbol</b> | OVAL                                                                                                                        |
| <b>Synonyms</b>        | SERPINB14; ovalbumin; member 14; egg albumin; plakalbumin; allergen Gal d II; clade (ovalbumin); serpin peptidase inhibitor |
