

## Native Mouse Immunoglobulin G2a

**Cat. No.** IgHg2a-161M    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                |                                                                           |
|----------------|---------------------------------------------------------------------------|
| Species        | Mouse                                                                     |
| Source         | Porcine Serum                                                             |
| Form           | Liquid                                                                    |
| Purity         | >95% (SDS-PAGE)                                                           |
| Applications   | Western blotting, ELISA, etc.                                             |
| Storage        | Aliquot and store at -20°C or -80°C. Avoid repeated freeze / thaw cycles. |
| Storage Buffer | PBS                                                                       |

### GENE INFORMATION

|                 |                                                                |
|-----------------|----------------------------------------------------------------|
| Gene Name       | IgHg2a immunoglobulin heavy constant gamma 2A [ Mus musculus ] |
| Official Symbol | IgHg2a                                                         |
| Synonyms        | Igh-1; Igh-1a; 1810060O09Rik                                   |
| Gene ID         | 380793                                                         |
