

## Native Human Immunoglobulin G (IgG)

**Cat. No.** IgG-217H    **Lot. No.** (See product label)

### SPECIFICATION

#### Product Overview

|                             |                                                                                                                |
|-----------------------------|----------------------------------------------------------------------------------------------------------------|
| <b>Species</b>              | Human                                                                                                          |
| <b>Source</b>               | Human Plasma                                                                                                   |
| <b>Form</b>                 | Frozen                                                                                                         |
| <b>Molecular Mass</b>       | MW: 23,000                                                                                                     |
| <b>Purity</b>               | >=95% by SDS-PAGE.                                                                                             |
| <b>Usage</b>                | For research use only.                                                                                         |
| <b>Quality Control Test</b> | Shown to be non reactive for HBsAg, anti-HCV, anti-HBc, and negative for anti-HIV 1 & 2 by FDA approved tests. |
| <b>Stability</b>            | >1 year                                                                                                        |
| <b>Storage</b>              | -20°C                                                                                                          |
| <b>Storage Buffer</b>       | 20 mM phosphate, pH 7.4, with 150 mM NaCl and 0.05% NaN <sub>3</sub>                                           |
