Active Native Ovine Hyaluronidase

Cat. No. Hyaluronidase-34O **Lot. No.** (See product label)

SPECIFICATION

Product Overview	
Species	Ovine
Source	Ovine Testis
Form	Freeze dried powder
Bio-activity	5000 U/mg
Unit Definition	The amount of emzyme causing the same turbidity reduction as the "International Unit" as compared with the international standard
Applications	In anti-cellulite preparations / promotion of topical drug absorption / local anesthesia / dispersion and dissipation of fluids and edema /in tissue and cell dissociation
Usage	For research use only, not for diagnostic or therapeutic use.
Storage	Store powder at -20°C or below under dry conditions. Allow the product to reach room temp before opening the vial and dissolve in appropriate buffers for usage. Before returning to storage, re-dessicate under vaccumn over silica gel for a minimum of 4 hours to provide best conditions for long term preservation of enzyme activity.
