

## Chicken Ovotransferrin Reference Standard

Cat. No. TF-12C    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                            |
|------------------|------------------------------------------------------------------------------------------------------------|
| Product Overview | Serum was collected from several chickens.                                                                 |
| Species          | Chicken                                                                                                    |
| Form             | Liquid                                                                                                     |
| Usage            | For Research Use Only, NOT for Diagnostic Use. For In Vitro Use Only. Not for Human or Animal Consumption. |
| Storage          | 4°C for short term storage, Frozen for long term storage.                                                  |
| Preservative     | 0.1% sodium azide                                                                                          |

### GENE INFORMATION

|                 |                                                                                                                                                                        |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene Name       | TF transferrin (ovotransferrin) [ Gallus gallus ]                                                                                                                      |
| Official Symbol | TF                                                                                                                                                                     |
| Synonyms        | LTF; TFEW; conalbumin; ovotransferrin; lactotransferrin; serum transferrin; allergen Gal d III; ovotransferrin BB type; ovotransferrin BC type; ovotransferrin CC type |
| Gene ID         | 396241                                                                                                                                                                 |
| mRNA Refseq     | NM_205304                                                                                                                                                              |
