

## Mouse SAA Reference Standard

**Cat. No.** Saa-56M    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Serum was collected from mice of several strains, ages and both sexes.                                     |
| <b>Species</b>          | Mouse                                                                                                      |
| <b>Form</b>             | Liquid                                                                                                     |
| <b>Usage</b>            | For Research Use Only, NOT for Diagnostic Use. For In Vitro Use Only. Not for Human or Animal Consumption. |
| <b>Storage</b>          | 4°C for short-term storage or frozen for long-term storage.                                                |
| <b>Preservative</b>     | 0.1% sodium azide                                                                                          |

### GENE INFORMATION

|                            |                                              |
|----------------------------|----------------------------------------------|
| <b>Gene Name</b>           | Saa serum amyloid A cluster [ Mus musculus ] |
| <b>Official Symbol</b>     | Saa                                          |
| <b>Gene ID</b>             | 111345                                       |
| <b>Chromosome Location</b> | chromosome: 7                                |
