

Mouse anti-RSV Monoclonal Antibody

Cat. No. CAB078 Lot. No. (See product label)

SPECIFICATION

Product Overview

Species Human

Source Mouse

Antigen Information

Human respiratory syncytial virus (RSV) is a negative-sense, single-stranded RNA virus of the family Paramyxoviridae, which includes common respiratory viruses such as those causing measles and mumps. RSV is a member of the paramyxovirus subfamily Pneumovirinae. RSV causes respiratory tract infections in patients of all ages. It is the major cause of lower respiratory tract infection during infancy and childhood. In temperate climates there is an annual epidemic during the winter months.

concentration 100g/0.2ml 500g/1ml

Application WB=1:100 Elisa =1:500-1000 IP=1:50-100 IHC=1:200-500

Storage Lyophilized: store at 4°C. After reconstitution, if not intended for use within a month, aliquot and store at -20°C.
