

## Native Rat Fibrinogen, FITC Labeled

**Cat. No.** Fgb-64R    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Rat fibrinogen amino terminal labeled with fluorescein isothiocyanate (FITC). Prepared from fresh rat plasma using several chromatographic steps. Plasminogen depleted by lysine affinity chromatography.                                                                                                                                                        |
| <b>Species</b>          | Rat                                                                                                                                                                                                                                                                                                                                                              |
| <b>Source</b>           | Rat plasma                                                                                                                                                                                                                                                                                                                                                       |
| <b>Form</b>             | Frozen liquid                                                                                                                                                                                                                                                                                                                                                    |
| <b>Molecular Mass</b>   | 340,000                                                                                                                                                                                                                                                                                                                                                          |
| <b>Purity</b>           | >95% by SDS-PAGE analysis                                                                                                                                                                                                                                                                                                                                        |
| <b>Usage</b>            | For in vitro laboratory use only. Thaw protein in a 37°C water bath. Aliquot and freeze the unused portion.                                                                                                                                                                                                                                                      |
| <b>Notes</b>            | Optimal experimental conditions and working dilutions must be determined by the end user. Sample concentration and volume are for example purposes only and do not necessarily represent the product that will be received. Please contact us for a current lot-specific product datasheet. Keep fibrinogen at 25-37°C, aliquot and flash freeze unused portion. |
| <b>Storage</b>          | -70°C; Protect from light                                                                                                                                                                                                                                                                                                                                        |
