

## Recombinant Human ADAMTSL5 lysate

**Cat. No.** ADAMTSL5-8HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 29387.33Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                         |
|------------------------|-----------------------------------------|
| <b>Gene Name</b>       | ADAMTSL5 ADAMTS-like 5 [ Homo sapiens ] |
| <b>Official Symbol</b> | ADAMTSL5                                |
| <b>Synonyms</b>        | THSD6                                   |
| <b>Gene ID</b>         | 339366                                  |
| <b>mRNA Refseq</b>     | NM_213604.2                             |

|                            |                                                 |
|----------------------------|-------------------------------------------------|
| <b>Protein Refseq</b>      | NP_998769.2                                     |
| <b>UniProt ID</b>          | Q6ZMM2                                          |
| <b>Chromosome Location</b> | 19p13.3                                         |
| <b>Function</b>            | metalloendopeptidase activity;zinc ion binding; |
