

## Recombinant Human LURAP1L lysate

Cat. No. LURAP1L-139HCL    Lot. No. (See product label)

### SPECIFICATION

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Product Overview    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| Species             | Human                                                                                    |
| Source              | HEK293                                                                                   |
| Molecular Mass      | 24552.77Da                                                                               |
| Recommended Usage   | WB                                                                                       |
| Storage Instruction | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                 |                                                              |
|-----------------|--------------------------------------------------------------|
| Gene Name       | LURAP1L leucine rich adaptor protein 1-like [ Homo sapiens ] |
| Official Symbol | LURAP1L                                                      |
| Synonyms        | bA3L8.2; C9orf150; HYST0841                                  |
| Gene ID         | 286343                                                       |
| mRNA Refseq     | NM_203403.1                                                  |
