

# Recombinant Human CCHCR1 lysate

**Cat. No.** CCHCR1-167HCL    **Lot. No.** (See product label)

## SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 87480.05Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

## GENE INFORMATION

|                        |                                                                                                                                                                                                                                                                            |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | CCHCR1 coiled-coil alpha-helical rod protein 1 [ Homo sapiens ]                                                                                                                                                                                                            |
| <b>Official Symbol</b> | CCHCR1                                                                                                                                                                                                                                                                     |
| <b>Synonyms</b>        | CCHCR1; coiled-coil alpha-helical rod protein 1; C6orf18, chromosome 6 open reading frame 18; HCR; pg8; StAR-binding protein; putative gene 8 protein; alpha-helical coiled-coil rod protein; HCR (a-helix coiled-coil rod homologue); SBP; C6orf18; MGC126371; MGC126372; |
| <b>Gene ID</b>         | 54535                                                                                                                                                                                                                                                                      |
