

## Recombinant Human CRIPT lysate

Cat. No. CRIPT-201HCL    Lot. No. (See product label)

### SPECIFICATION

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Product Overview    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| Species             | Human                                                                                    |
| Source              | HEK293                                                                                   |
| Molecular Mass      | 11215.93Da                                                                               |
| Recommended Usage   | WB                                                                                       |
| Storage Instruction | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                 |                                                                                                                                                         |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene Name       | CRIPT cysteine-rich PDZ-binding protein [ Homo sapiens ]                                                                                                |
| Official Symbol | CRIPT                                                                                                                                                   |
| Synonyms        | CRIPT; cysteine-rich PDZ-binding protein; HSPC139; postsynaptic protein CRIPT; cysteine-rich interactor of PDZ3; cysteine-rich interactor of PDZ three; |
| Gene ID         | 9419                                                                                                                                                    |
| mRNA Refseq     | NM_014171                                                                                                                                               |
