

## Recombinant Human CTAG1A lysate

Cat. No. CTAG1A-204HCL    Lot. No. (See product label)

### SPECIFICATION

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Product Overview    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| Species             | Human                                                                                    |
| Source              | HEK293                                                                                   |
| Molecular Mass      | 20492.24Da                                                                               |
| Recommended Usage   | WB                                                                                       |
| Storage Instruction | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                 |                                                                                                                                                                                       |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene Name       | CTAG1A cancer/testis antigen 1A [ Homo sapiens ]                                                                                                                                      |
| Official Symbol | CTAG1A                                                                                                                                                                                |
| Synonyms        | ESO1; LAGE2A; cancer/testis antigen 1; CT6.1; LAGE-2; cancer/testis antigen 1-A; cancer/testis antigen 6.1; I antigen family member 2; autoimmunogenic cancer/testis antigen NY-ESO-1 |
| Gene ID         | 246100                                                                                                                                                                                |
