

## Recombinant Human FAM101A lysate

Cat. No. FAM101A-251HCL    Lot. No. (See product label)

### SPECIFICATION

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Product Overview    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| Species             | Human                                                                                    |
| Source              | HEK293                                                                                   |
| Molecular Mass      | 17963.68Da                                                                               |
| Recommended Usage   | WB                                                                                       |
| Storage Instruction | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                 |                                                                                    |
|-----------------|------------------------------------------------------------------------------------|
| Gene Name       | FAM101A family with sequence similarity 101, member A [ Homo sapiens ]             |
| Official Symbol | FAM101A                                                                            |
| Synonyms        | FAM101A; family with sequence similarity 101, member A; protein FAM101A; FLJ44614; |
| Gene ID         | 144347                                                                             |
| mRNA Refseq     | NM_181709                                                                          |
