

## Recombinant Human FAM127B lysate

Cat. No. FAM127B-255HCL    Lot. No. (See product label)

### SPECIFICATION

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Product Overview    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| Species             | Human                                                                                    |
| Source              | HEK293                                                                                   |
| Molecular Mass      | 13204.03Da                                                                               |
| Recommended Usage   | WB                                                                                       |
| Storage Instruction | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                 |                                                                             |
|-----------------|-----------------------------------------------------------------------------|
| Gene Name       | FAM127B family with sequence similarity 127, member B [ Homo sapiens ]      |
| Official Symbol | FAM127B                                                                     |
| Synonyms        | CXX1b; MAR8A; protein FAM127B; mammalian retrotransposon derived protein 8A |
| Gene ID         | 26071                                                                       |
| mRNA Refseq     | NM_001078172                                                                |
