

## Recombinant Human FBXL15 lysate

**Cat. No.** FBXL15-272HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 35497.81Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                                                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | FBXL15 F-box and leucine-rich repeat protein 15 [ Homo sapiens ]                                                                                                                                                       |
| <b>Official Symbol</b> | FBXL15                                                                                                                                                                                                                 |
| <b>Synonyms</b>        | FBXL15; F-box and leucine-rich repeat protein 15; F box only protein 37 , FBXO37; F-box/LRR-repeat protein 15; Fbl15; MGC11279; F-box only protein 37; pleckstrin and Sec7 domain protein; JET; PSD; FBXO37; FLJ16137; |
| <b>Gene ID</b>         | 79176                                                                                                                                                                                                                  |
