

Recombinant Mouse Prdx3

Cat. No. Prdx3-1026M **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Peroxiredoxin (Prx) is a growing family, whose mammalian members have been known connect with cell proliferation, differentiation, and apoptosis.
Species	Mouse
Source	E.coli
Description	This gene encodes a protein with antioxidant function and is localized in the mitochondrion. This gene shows significant nucleotide sequence similarity to the gene coding for the C22 subunit of Salmonella typhimurium alkylhydroperoxide reductase.
Research Topic	Oxidative stress
Reconstitution	Reconstitute with 0.83ml distilled water to obtain 1.0mg/ml.
