

# Recombinant Human HHPL2 lysate

**Cat. No.** HHPL2-321HCL    **Lot. No.** (See product label)

## SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 28631.45Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

## GENE INFORMATION

|                        |                                                                                                                                               |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | HHIPL2 HHIP-like 2 [ Homo sapiens ]                                                                                                           |
| <b>Official Symbol</b> | HHIPL2                                                                                                                                        |
| <b>Synonyms</b>        | HHIPL2; HHIP-like 2; KIAA1822 like , KIAA1822L; HHIP-like protein 2; FLJ13840; hedgehog interacting protein-like 2; KIAA1822L; RP11-378J18.1; |
| <b>Gene ID</b>         | 79802                                                                                                                                         |
| <b>mRNA Refseq</b>     | NM_024746                                                                                                                                     |
