

## Recombinant Human IQCH lysate

Cat. No. IQCH-348HCL    Lot. No. (See product label)

### SPECIFICATION

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Product Overview    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| Species             | Human                                                                                    |
| Source              | HEK293                                                                                   |
| Molecular Mass      | 38555.84Da                                                                               |
| Recommended Usage   | WB                                                                                       |
| Storage Instruction | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                 |                                                                                                                                   |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Gene Name       | IQCH IQ motif containing H [ Homo sapiens ]                                                                                       |
| Official Symbol | IQCH                                                                                                                              |
| Synonyms        | IQCH; IQ motif containing H; IQ domain-containing protein H; FLJ12476; testis development protein NYD-SP5; NYDSP5; DKFZp434F2114; |
| Gene ID         | 64799                                                                                                                             |
| mRNA Refseq     | NM_001031715                                                                                                                      |
