

## Recombinant Human AP5Z1 lysate

**Cat. No.** AP5Z1-359HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 49019.68Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                                                                                                                                           |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | AP5Z1 adaptor-related protein complex 5, zeta 1 subunit [ Homo sapiens ]                                                                                  |
| <b>Official Symbol</b> | AP5Z1                                                                                                                                                     |
| <b>Synonyms</b>        | zeta; SPG48; KIAA0415; AP-5 complex subunit zeta-1; zeta5; adapter-related protein complex 5 zeta subunit; adaptor-related protein complex 5 zeta subunit |
| <b>Gene ID</b>         | 9907                                                                                                                                                      |
| <b>mRNA Refseq</b>     | NM_014855                                                                                                                                                 |
