

## Recombinant Human LHFPL5 lysate

**Cat. No.** LHFPL5-379HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 24200.25Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                                                                                                                               |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | <a href="#">LHFPL5 lipoma HMGIC fusion partner-like 5 [ Homo sapiens ]</a>                                                                    |
| <b>Official Symbol</b> | LHFPL5                                                                                                                                        |
| <b>Synonyms</b>        | TMHS; DFNB67; dJ510O8.8; tetraspan membrane protein of hair cell stereocilia; LHFP-like protein 5; lipoma HMGIC fusion partner-like 5 protein |
| <b>Gene ID</b>         | <a href="#">222662</a>                                                                                                                        |
| <b>mRNA Refseq</b>     | <a href="#">NM_182548</a>                                                                                                                     |
