

## Recombinant Human NPIP3 lysate

**Cat. No.** NPIP3-388HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 79091.41Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                                                                                                                                                                                                                      |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | NPIP3 nuclear pore complex interacting protein family, member B3 [ Homo sapiens ]                                                                                                                                                    |
| <b>Official Symbol</b> | NPIP3                                                                                                                                                                                                                                |
| <b>Synonyms</b>        | NPIP; NPIPB; NPIPB5; NPIPL3; KIAA0220L; nuclear pore complex-interacting protein-like 3; protein pps22-1; KIAA0220-like protein; nuclear pore complex-interacting protein B type; PI-3-kinase-related kinase SMG-1 isoform 1 homolog |
| <b>Gene ID</b>         | 23117                                                                                                                                                                                                                                |
