

## Recombinant Human NDUFAF2 lysate

**Cat. No.** NDUFAF2-436HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 19856.23Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                                                                                                                                                                                                                                                         |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | NDUFAF2 NADH dehydrogenase (ubiquinone) 1 alpha subcomplex, assembly factor 2 [ Homo sapiens ]                                                                                                                                                                          |
| <b>Official Symbol</b> | NDUFAF2                                                                                                                                                                                                                                                                 |
| <b>Synonyms</b>        | NDUFAF2; NADH dehydrogenase (ubiquinone) 1 alpha subcomplex, assembly factor 2; NDUFA12 like , NDUFA12L; mimitin, mitochondrial; B17.2L; mimitin; MMTN; Myc induced mitochondrial protein; NDUFA12-like protein; Myc-induced mitochondrial protein; NDUFA12L; FLJ22398; |
