

# Recombinant Human PTCRA lysate

**Cat. No.** PTCRA-515HCL    **Lot. No.** (See product label)

## SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 31765.19Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

## GENE INFORMATION

|                        |                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | PTCRA pre T-cell antigen receptor alpha [ Homo sapiens ]                                        |
| <b>Official Symbol</b> | PTCRA                                                                                           |
| <b>Synonyms</b>        | PTA; PT-ALPHA; pre T-cell antigen receptor alpha; pT-alpha-TCR; pre-T-cell receptor alpha chain |
| <b>Gene ID</b>         | 171558                                                                                          |
| <b>mRNA Refseq</b>     | NM_001243168                                                                                    |
