

## Recombinant Human RBM15B lysate

**Cat. No.** RBM15B-530HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 47145.07Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                                                                                                                                                                                                      |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene Name</b>       | RBM15B RNA binding motif protein 15B [ Homo sapiens ]                                                                                                                                                                |
| <b>Official Symbol</b> | RBM15B                                                                                                                                                                                                               |
| <b>Synonyms</b>        | RBM15B; RNA binding motif protein 15B; putative RNA-binding protein 15B; HUMAGCGB; OTT3; huOTT3; one twenty two protein 3; one-twenty two protein 3; RNA-binding motif protein 15B; chromosome 3p21.1 gene sequence; |
| <b>Gene ID</b>         | 29890                                                                                                                                                                                                                |
