

## Recombinant Human SPCS2 lysate

Cat. No. SPCS2-626HCL    Lot. No. (See product label)

### SPECIFICATION

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Product Overview    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| Species             | Human                                                                                    |
| Source              | HEK293                                                                                   |
| Molecular Mass      | 25030.59Da                                                                               |
| Recommended Usage   | WB                                                                                       |
| Storage Instruction | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                 |                                                                                   |
|-----------------|-----------------------------------------------------------------------------------|
| Gene Name       | SPCS2 signal peptidase complex subunit 2 homolog (S. cerevisiae) [ Homo sapiens ] |
| Official Symbol | SPCS2                                                                             |
| Gene ID         | 9789                                                                              |
| mRNA Refseq     | NM_014752.2                                                                       |
| Protein Refseq  | NP_055567.2                                                                       |
