

## Recombinant Human TM4SF18 lysate

**Cat. No.** TM4SF18-668HCL    **Lot. No.** (See product label)

### SPECIFICATION

|                            |                                                                                          |
|----------------------------|------------------------------------------------------------------------------------------|
| <b>Product Overview</b>    | Over-expression cells lysed in RIPA buffer and lysate supplied in SDS loading buffer     |
| <b>Species</b>             | Human                                                                                    |
| <b>Source</b>              | HEK293                                                                                   |
| <b>Molecular Mass</b>      | 22277.17Da                                                                               |
| <b>Recommended Usage</b>   | WB                                                                                       |
| <b>Storage Instruction</b> | Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C. |

### GENE INFORMATION

|                        |                                                                 |
|------------------------|-----------------------------------------------------------------|
| <b>Gene Name</b>       | TM4SF18 transmembrane 4 L six family member 18 [ Homo sapiens ] |
| <b>Official Symbol</b> | TM4SF18                                                         |
| <b>Synonyms</b>        | L6D; transmembrane 4 L6 family member 18                        |
| <b>Gene ID</b>         | 116441                                                          |
| <b>mRNA Refseq</b>     | NM_001184723                                                    |
