

Goat Anti-Mouse IgG beads

Cat. No. goat anti-mouse IgG-14A **Lot. No.** (See product label)

SPECIFICATION

Product Overview

This product contains sepharose beads coated with goat anti-mouse IgG. The goat anti-mouse IgG is affinity purified and conjugated to the beads at 1-1.5 mg/ml ratio. The beads may be used for purification of mouse IgG class of antibodies or proteins. The beads may also be used for immunoprecipitation (IP). For a complete use guide, please follow the protocol section. When used and stored properly, the beads may be used repeatedly for up to 100 times.

Cat.no goat anti-mouse IgG-14A

Matrix Highly cross-linked agarose, 4%

Functional group goat anti-mouse IgG

Average particle size 45-165 μ m

Ligand Goat Anti-Mouse IgG beads

Dynamic binding capacity 4-7 mg IgG per ml

Recommended flow rate 1-3 ml/min/cm²

Temperature Stability 4°C to 25°C
