

Rabbit Anti-Human IgG beads

Cat. No. Rabbit Anti-Human IgG-18A **Lot. No.** (See product label)

SPECIFICATION

Product Overview

This product contains sepharose beads coated with rabbit anti-human IgG. Rabbit anti-human IgG is affinity purified and conjugated to the beads at 1-1.5 mg/ml ratio. The beads may be used for purification of human IgG class of antibodies or proteins. The beads may also be used for immunoprecipitation (IP). For a complete use guide, please follow the protocol section. When used and stored properly, the beads may be used repeatedly for up to 100 times.

Cat.no Rabbit Anti-Human IgG-18A

Matrix Highly cross-linked agarose, 4%

Functional group Rabbit Anti-Human IgG

Average particle size 45-165 μ m

Ligand concentration 1-1.5 mg/ml

Dynamic binding capacity 4-7 mg IgG per ml

Recommended flow rate 1-3 ml/min/cm²

Temperature Stability 4°C to 25°C
