

Recombinant Human INS therapeutic protein(Insulin aspart)

Cat. No. Insulin-P060H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human Insulin therapeutic protein is a recombinant, biosynthetic, fast-acting insulin analogue. It has a single amino acid substitution at position B28 where proline is replaced with aspartic acid. This substitution decreases its propensity to form hexamers and gives it a higher rate of absorption following subcutaneous administration compared to native insulin. Insulin aspart is produced in a genetically modified strain of <i>Saccharomyces cerevisiae</i> and harvested from a bioreactor.
Species	Human
Source	S.Cerevisiae
Description	Insulin aspart is a recombinant, biosynthetic, fast-acting insulin analogue. It has a single amino acid substitution at position B28 where proline is replaced with aspartic acid. This substitution decreases its propensity to form hexamers and gives it a higher rate of absorption following subcutaneous administration compared to native insulin. Insulin aspart is produced in a genetically modified strain of <i>Saccharomyces cerevisiae</i> and harvested from a bioreactor.

Storage Can be stored at +4 centigrade short term (1-2weeks). For long term storage, aliquot and store at -20 centigrade or -70 centigrade. Avoid repeated freezing and thawing cycles.

Alias INS; ILPR; IRDN; IDDM2; Insulin aspart

GENE INFORMATION

Gene Name [INS insulin \[Homo sapiens \]](#)

Official Symbol [INS](#)

Synonyms INS; insulin; proinsulin; ILPR; IRDN; IDDM2; MODY10;

Gene ID [3630](#)

mRNA Refseq [NM_000207](#)

Protein Refseq [NP_000198](#)

UniProt ID [P01308](#)

Chromosome Location 11p15.5

Pathway ATF-2 transcription factor network, organism-specific biosystem; Adipogenesis, organism-specific biosystem; Aldosterone-regulated sodium reabsorption, organism-specific biosystem; Aldosterone-regulated sodium reabsorption, conserved biosystem; Amyloids, organism-specific biosystem; Arf6 trafficking events, organism-specific biosystem; Developmental Biology, organism-specific biosystem;
