

Coelenterazine n

Cat. No. DYE-20 **Lot. No.** (See product label)

SPECIFICATION

Product Overview

Description	Coelenterazine n is a synthetic derivative of coelenterazine. The luminescence intensity of its aequorin complex is the weakest of all coelenterazine analogs and its response time to calcium is also much slower than that of native coelenterazine. Coelenterazine n is reported to be a very useful low-sensitivity coelenterazine. See the coelenterazine flyer under downloads for a comparison of coelenterazine analogs.
Molecular Mass	457.52
Ex(nm)	431
Em(nm)	468
Solvent	Ethanol
Storage	Store at -20°C in the dark. Dessicated.
