

## Recombinant Human HN1 protein, GST/His-tagged

**Cat. No.** HN1-24H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                 |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant full length Human HN1 fused with 6xHis-GST tag was expressed in E. coli.                                                                            |
| <b>Species</b>          | Human                                                                                                                                                           |
| <b>Source</b>           | E.coli                                                                                                                                                          |
| <b>ProteinLength</b>    | 1-181 aa (full-length)                                                                                                                                          |
| <b>Form</b>             | PBS, 0.09% sodium Azide, may contain carrier protein-stabilizer                                                                                                 |
| <b>Molecular Mass</b>   | 48869 Da                                                                                                                                                        |
| <b>Purity</b>           | >90%                                                                                                                                                            |
| <b>Applications</b>     | ELISA, WB, Antibody Production, Protein array                                                                                                                   |
| <b>Storage</b>          | Frozen / Solution. For extended storage, conserve at -80°C. Repeated freezing and thawing is not recommended. Store working aliquots at 4°C for up to one week. |

### GENE INFORMATION

|                        |                                                                 |
|------------------------|-----------------------------------------------------------------|
| <b>Gene Name</b>       | HN1 hematological and neurological expressed 1 [ Homo sapiens ] |
| <b>Official Symbol</b> | HN1                                                             |
