Cytosolic Phospholipase A2 Assay Kit

Cat. No. Kit-0697 **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Cytosolic Phospholipase A2 Assay Kit can be used to determine the activity of cytosolic Phospholipase A2 (cPLA2) in purified preparations, cell cultures, or tissue homogenates. Use of this assay with preparations containing more than one type of PLA2 will result in the measurement of total PLA2 activity rather than cPLA2 alone. If you want to detect secretory PLA2, we recommend using Secretory Phospholipase Assay Kit .
Size	96 tests
Applications	Functional Studies more details
Target Species	Reacts with: Human; Predicted to work with: all Mammals
Storage	Store at -20°C.
Kit Components	Components: 96 tests; 96-Well Plate (Colorimetric Assay): 1 unit; 96-Well Plate Cover: 1 unit; Arachidonoyl Thio-PC (Substrate): 2 vials; Bee venom PLA2 Control: 1 vial; Bromoenol Lactone Solution: 1 vial; cPLA2 Assay Buffer: 1 vial; DTNB/EGTA: 4 vials
Compatible Sample Types	Cell culture extracts, Tissue Extracts
