

Native Bovine ALB protein, methylated

Cat. No. ALB-198B **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Native Bovine ALB protein was purified from Bovine serum and was methylated.
Species	Bovine
Source	Bovine Serum
Description	ALB played an important role in many functions.
Applications	As an affinity ligand on diatomaceous earth support (MAK chromatography), a medium for fractionation of different forms of DNA and for separating aminoacyl-tRNAs. Different modes of binding of double-stranded, denatured, and replicating forms of DNA account for the efficacy of the method.
Storage	2-8 centigrade

GENE INFORMATION

Gene Name	ALB albumin [Bos taurus]
Official Symbol	ALB
Synonyms	BSA; serum albumin
Gene ID	280717

 Tel: 1-631-559-9269 1-516-512-3133

 Email: info@creative-biomart.com  Fax: 1-631-938-8127

 45-1 Ramsey Road, Shirley, NY 11967, USA

mRNA Refseq	NM_180992
Protein Refseq	NP_851335
MIM	
UniProt ID	P02769
Chromosome Location	chromosome: 6
Pathway	Bile acid and bile salt metabolism, organism-specific biosystem; HDL-mediated lipid transport, organism-specific biosystem; Metabolism of lipids and lipoproteins, organism-specific biosystem; Metabolism of lipids and lipoproteins, organism-specific biosystem
Function	DNA binding; drug binding; metal ion binding
