

## Recombinant Human WTAP protein, T7-tagged

**Cat. No.** WTAP-186H    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                   |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant human WTAP (151aa, Isoform-II) fused with T7 Tag at N-terminal was expressed in E. coli.                                                                              |
| <b>Species</b>          | Human                                                                                                                                                                             |
| <b>Source</b>           | E.coli                                                                                                                                                                            |
| <b>ProteinLength</b>    | 151 a.a.                                                                                                                                                                          |
| <b>Form</b>             | 1.0 mg/ml, sterile-filtered, in 20 mM pH 8.0 Tris-HCl Buffer, with proprietary formulation of NaCl, KCl, Sucrose and DTT.                                                         |
| <b>AA Sequence</b>      | MASMTGGQQMGRGEFMTNNEEPLPKKVRLSETDFKVMARDELILRWKQYEAYVQAL<br>EGKYTDLNSNDVTGLRESEE KLKQQQQESARRENILVMRLATKEQEMQECTTQIQY<br>LKQVQQPSVAQLRSTMVDPAINLFFLKMKGELEQTKDKL EQAQNELSAWKFTPDR |
| <b>Purity</b>           | >90% by SDS-PAGE                                                                                                                                                                  |
| <b>Storage</b>          | Keep at -80 centigrade for long term storage. Product is stable at 4 centigrade for at least 7 days.                                                                              |

### GENE INFORMATION

|                  |                                                        |
