

## Recombinant Human IA2 protein, GST-tagged

**Cat. No.** IA2-02H    **Lot. No.** (See product label)

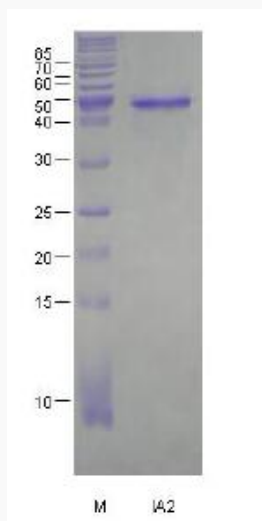

### SPECIFICATION

|                         |                                                                                                                        |
|-------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Human IA2(605-979 aa) fused with GST tag was expressed in E. coli.                                         |
| <b>Species</b>          | Human                                                                                                                  |
| <b>Source</b>           | E.coli                                                                                                                 |
| <b>ProteinLength</b>    | 605-979 a.a.                                                                                                           |
| <b>Description</b>      | IA2 played an important role in many functions.                                                                        |
| <b>Form</b>             | Lyophilized from Tris-buffer                                                                                           |
| <b>Molecular Mass</b>   | 42.3 kDa                                                                                                               |
| <b>Endotoxin</b>        | <0.10 EU per 1 µg of the protein by the LAL method.                                                                    |
| <b>Purity</b>           | >95%                                                                                                                   |
| <b>Storage</b>          | Can be stored at 4 centigrade short term(1-2 weeks). For long term storage, store at -20 centigrade or -70 centigrade. |
