

Recombinant Human ARNT protein, His/S-tagged

Cat. No. ARNT-32H **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant Human ARNT fused with His/S tag was expressed in E. coli.
Species	Human
Source	E.coli
Description	Transcriptional responses to many environmental and developmental stimuli are mediated by the basic helix-loop-helix (bHLH)-PAS family of proteins, which form homodimers that bind regulatory DNA sequences. ARNT/HIF-1 beta regulates the expression of different sets of genes in response to distinct environmental challenges. ARNT forms a complex with arylhydrocarbon receptor (AHR) to activate expression of genes encoding P450.
Molecular Mass	21.5 kDa
Storage	Store at +4 centigrade for up to 1 month, or aliquot and store at -80 centigrade for up to 12 months. Avoid repeat freeze-thaw cycles.
