

H3N2 (A/Shangdong/9/93) Protein

Cat. No. H3N2-1012I **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Allantoic fluid of 10 days old embryonated eggs, inoculated with influenza A virus, strain A/Shangdong/9/93.
Species	H3N2
Form	STE, 0.09 % sodium azide (NaN ₃) and 0.005 % thimerosal.
Purity	>90%
Characteristic	Ultracentrifugation with 10 - 40 % sucrose gradient.
Applications	Serological studies of influenza A virus, immunogen for antibody production.
Notes	Thimerosal and beta propiolactone treatment. This product has been treated in a manner consistent with methods of inactivation. Generally accepted good laboratory practices appropriate to microbiological/viral safe handling practices and techniques are required at work.
Storage	Keep it at 4°C if used within a month. For long term storage, split it into small aliquots and keep at -80°C. Avoid repeated freezing and thawing. The product will be expired one year after receiving if stored properly. Non-hazardous.
