

## Recombinant H1N1 (A/Christchurch/16/2010) HA1 Protein, His-tagged

Cat. No. HA1-1020I Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                                                                                                            |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant H1N1 (A/Christchurch/16/2010) HA1 Protein (a.a.18-344), fused with C-terminal 6xHis tag, was produced in HEK293.                                                                                                               |
| Species          | H1N1                                                                                                                                                                                                                                       |
| Source           | HEK293                                                                                                                                                                                                                                     |
| ProteinLength    | 18-344 a.a.                                                                                                                                                                                                                                |
| Form             | Each vial contains 100 ug of purified protein (1 mg/ml) in PBS                                                                                                                                                                             |
| Purity           | >95%, based on SDS PAGE                                                                                                                                                                                                                    |
| Applications     | Antibody ELISA, Immunogen, WB standard, etc.                                                                                                                                                                                               |
| Notes            | For research use only, not for use in diagnostic procedures.                                                                                                                                                                               |
| Storage          | Keep it at 4°C if used within a month. For long term storage, split it into small aliquots and keep at -80°C. Avoid repeated freezing and thawing. The product will be expired one year after receiving if stored properly. Non-hazardous. |
