

## Recombinant H1N1 (A/Brisbane/59/2007) NP Protein, His-tagged

Cat. No. NP-1145I    Lot. No. (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                            |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant H1N1 (A/Brisbane/59/2007) NP Protein (a.a. 1-486) (Genebank Accession No. ADI99533), fused with C-terminal 6xHis tag, was produced in E.coli.                                                                                  |
| <b>Species</b>          | H1N1                                                                                                                                                                                                                                       |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                     |
| <b>ProteinLength</b>    | 1-486 a.a.                                                                                                                                                                                                                                 |
| <b>Form</b>             | Each vial contains 100 ug of lyophilized protein (1 mg/ml) in PBS with 8M urea. Reconstitute the protein with 100ul of Millipore water.                                                                                                    |
| <b>Purity</b>           | >90%, based on SDS PAGE                                                                                                                                                                                                                    |
| <b>Applications</b>     | WB standard, antibody ELISA, immunogen, etc.                                                                                                                                                                                               |
| <b>Notes</b>            | For research use only, not for use in diagnostic procedures.                                                                                                                                                                               |
| <b>Storage</b>          | Keep it at 4°C if used within a month. For long term storage, split it into small aliquots and keep at -80°C. Avoid repeated freezing and thawing. The product will be expired one year after receiving if stored properly. Non-hazardous. |
