

## Recombinant H1N1 (A/Puerto Rico/8/1934) M1 Protein, His-tagged

**Cat. No.** M1-1162I    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                                                                            |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant H1N1 (A/Puerto Rico/8/1934) M1 Protein (a.a. 1-252) (Genebank Accession No. AGK63058), fused with C-terminal 6xHis tag, was produced in E.coli.                                                                                |
| <b>Species</b>          | H1N1                                                                                                                                                                                                                                       |
| <b>Source</b>           | E.coli                                                                                                                                                                                                                                     |
| <b>ProteinLength</b>    | 1-252 a.a.                                                                                                                                                                                                                                 |
| <b>Form</b>             | Each vial contains 100 ug of purified protein (1 mg/ml) in PBS.                                                                                                                                                                            |
| <b>Purity</b>           | >95%, based on SDS PAGE                                                                                                                                                                                                                    |
| <b>Applications</b>     | WB standard, antibody ELISA, immunogen, etc.                                                                                                                                                                                               |
| <b>Notes</b>            | For research use only, not for use in diagnostic procedures.                                                                                                                                                                               |
| <b>Storage</b>          | Keep it at 4°C if used within a month. For long term storage, split it into small aliquots and keep at -80°C. Avoid repeated freezing and thawing. The product will be expired one year after receiving if stored properly. Non-hazardous. |
