

## Recombinant CDV(strain Onderstepoort) Matrix/M Protein, His-tagged

Cat. No. M-391V    Lot. No. (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                           |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant CDV(strain Onderstepoort) Matrix/M Protein(P06943)(Met1-Leu335), fused with N-terminal His tag, was expressed in E.coli.                                      |
| <b>Species</b>          | CDV                                                                                                                                                                       |
| <b>Source</b>           | E.coli                                                                                                                                                                    |
| <b>ProteinLength</b>    | 1-335 aa                                                                                                                                                                  |
| <b>Form</b>             | Lyophilized from a solution in PBS pH 7.4, 0.02% NLS, 1 mM EDTA, 4% Trehalose, 1% Mannitol.                                                                               |
| <b>Molecular Mass</b>   | 39.94 kDa                                                                                                                                                                 |
| <b>Purity</b>           | >90% as determined by SDS-PAGE.                                                                                                                                           |
| <b>Storage</b>          | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for frequent use. Store at -20 to -80°C for twelve months from the date of receipt. |
| <b>Reconstitution</b>   | Reconstitute in sterile water for a stock solution.                                                                                                                       |
