

# Recombinant Huaiyangshan Virus Nucleocapsid Protein, His-tagged

**Cat. No.** N-415V    **Lot. No.** (See product label)

## SPECIFICATION

|                         |                                                                                                                                                               |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Huaiyangshan Virus Nucleocapsid Protein (a.a. 1-252) (Genebank Accession No. AEA29891), fused with C-terminal 6xHis tag, was produced in E. coli. |
| <b>Species</b>          | Huaiyangshan Virus                                                                                                                                            |
| <b>Source</b>           | E.coli                                                                                                                                                        |
| <b>ProteinLength</b>    | 1-252 a.a.                                                                                                                                                    |
| <b>Form</b>             | Each vial contains 100 ug of lyophilized protein in PBS with 8M Urea.                                                                                         |
| <b>Purity</b>           | >95%, based on SDS PAGE.                                                                                                                                      |
| <b>Applications</b>     | WB standard, antibody ELISA, immunogen, etc.                                                                                                                  |
| <b>Stability</b>        | The product will be expired one year after receiving if stored properly.                                                                                      |
| <b>Storage</b>          | Keep it at 4°C if used within a month. For long term storage, split it into small aliquots and keep at -80°C. Avoid repeated freezing and thawing.            |
| <b>Reconstitution</b>   | Reconstitute the protein with 100 ul of Millipore water.                                                                                                      |
| <b>Warning</b>          | For research use only, not for use in diagnostic procedures.                                                                                                  |
