

## Recombinant Oropouche Virus NSs Protein, GST&His-tagged

**Cat. No.** NSs-419V    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                             |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Oropouche Virus NSs Protein (a.a. 1-92)(GenBank No. AJT39492), fused with N-terminal GST tag and C-terminal 6xHis tag, was produced in E. coli. |
| <b>Species</b>          | Oropouche Virus                                                                                                                                             |
| <b>Source</b>           | E.coli                                                                                                                                                      |
| <b>ProteinLength</b>    | 1-92 a.a.                                                                                                                                                   |
| <b>Form</b>             | Each vial contains 100 ug of protein in PBS with 8M Urea.                                                                                                   |
| <b>Purity</b>           | >90%, based on SDS PAGE.                                                                                                                                    |
| <b>Applications</b>     | WB standard, antibody ELISA, etc                                                                                                                            |
| <b>Stability</b>        | The product will be expired one year after receiving if stored properly.                                                                                    |
| <b>Storage</b>          | Keep it at 4°C if used within a month. For long term storage, split it into small aliquots and keep at -80°C. Avoid repeated freezing and thawing.          |
| <b>Warning</b>          | For research use only, not for use in diagnostic procedures.                                                                                                |
