

Recombinant Human OMP

Cat. No. OMP-26853TH **Lot. No.** (See product label)

SPECIFICATION

Product Overview	Recombinant fragment corresponding to amino acids 65-163 of Human Olfactory Marker Protein with N terminal proprietary tag; Predicted MWt 36.52.
Species	Human
Source	Wheat Germ
ProteinLength	99 amino acids
Description	Olfactory marker protein is uniquely associated with the mature olfactory receptor neurons in many vertebrate species from fish to man. The OMP gene structure and protein sequence are highly conserved between mouse, rat and human. Results of the mouse knockout studies show that OMP-null mice are compromised in their ability to respond to odor stimuli, and that OMP represents a novel modulatory component of the odor detection/signal transduction cascade.
Molecular Weight	36.520kDa inclusive of tags
