

## Recombinant Human ZSCAN26 Protein, HIS-tagged

Cat. No. ZSCAN26-090H    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                     |
|------------------|-------------------------------------------------------------------------------------|
| Product Overview | Recombinant Human ZSCAN26 fused with His tag at N-termina was expressed in E. coli. |
| Species          | Human                                                                               |
| Source           | E.coli                                                                              |
| Form             | 25 mM Tris, pH8.0, 150 mM NaCl, 10% glycerol, 1% Sarkosyl.                          |
| Molecular Mass   | 39.5 kDa                                                                            |
| Purity           | > 80% as determined by SDS-PAGE and Coomassie blue staining                         |
| Concentration    | >50 ug/mL as determined by microplate BCA method                                    |

### GENE INFORMATION

|                 |                                                                            |
|-----------------|----------------------------------------------------------------------------|
| Gene Name       | ZSCAN26 zinc finger and SCAN domain containing 26 [ Homo sapiens (human) ] |
| Official Symbol | ZSCAN26                                                                    |
| Synonyms        | SREZBP; ZNF187; SRE-ZBP; ZSCAN26;                                          |
| Gene ID         | 7741                                                                       |
