

## Recombinant *Staphylococcus saprophyticus* subsp. *saprophyticus* ATCC 15305 SSP\_RS03235 protein, His-tagged

Cat. No. SSP-RS03235-0410S    Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                                         |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant <i>Staphylococcus saprophyticus</i> subsp. <i>saprophyticus</i> ATCC 15305 SSP_RS03235 full length or partial length protein was expressed. |
| Species          | <i>Staphylococcus</i>                                                                                                                                   |
| Source           | E.Coli/Yeast                                                                                                                                            |
| Form             | Liquid or lyophilized powder                                                                                                                            |
| Endotoxin        | < 1.0 EU per µg of the protein as determined by the LAL method.                                                                                         |
| Purity           | > 80% by SDS-PAGE                                                                                                                                       |
| Notes            | This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.                        |
| Storage          | Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.                                                                     |
| Storage buffer   | PBS buffer                                                                                                                                              |

### GENE INFORMATION

|           |                                                                                                                      |
|-----------|----------------------------------------------------------------------------------------------------------------------|
| Gene Name | SSP_RS03235 50S ribosomal protein L23 [ <i>Staphylococcus saprophyticus</i> subsp. <i>saprophyticus</i> ATCC 15305 ] |
