

## Recombinant Staphylococcus epidermidis (strain: SK356, other: QacAGmKm) SAP109A\_002 protein, His-tagged

Cat. No. SAP109A-002-1535S Lot. No. (See product label)

### SPECIFICATION

|                  |                                                                                                                                          |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Product Overview | Recombinant Staphylococcus epidermidis (strain: SK356, other: QacAGmKm) SAP109A_002 full length or partial length protein was expressed. |
| Species          | Staphylococcus                                                                                                                           |
| Source           | E.Coli/Yeast                                                                                                                             |
| Form             | Liquid or lyophilized powder                                                                                                             |
| Endotoxin        | < 1.0 EU per µg of the protein as determined by the LAL method.                                                                          |
| Purity           | > 80% by SDS-PAGE                                                                                                                        |
| Notes            | This item requires custom production and lead time is between 5-9 weeks. We can custom produce according to your specifications.         |
| Storage          | Store it at +4 °C for short term. For long term storage, store it at -20 °C~-80 °C.                                                      |
| Storage buffer   | PBS buffer                                                                                                                               |

### GENE INFORMATION

|           |                                                               |
