

Active Recombinant Treponema pallidum p15 protein, His-tagged

Cat. No. p15-245 Lot. No. (See product label)

SPECIFICATION

Product Overview	Recombinant Treponema pallidum p15 fused with His tag at C-terminal was expressed in E. coli.
Species	Treponema pallidum
Source	E.coli
Description	<p>Treponema pallidum is a gram-negative spirochaete bacterium and is considered to be metabolically crippled. There are at least four known subspecies: T. pallidum pallidum, T. pallidum pertenue, T. pallidum carateum and T. pallidum endemicum. The helical structure of T. pallidum pallidum allows it to move in a corkscrew motion through viscous mediums such as mucus. Treponema pallidum sub sp. pallidum has one of the smallest bacterial genomes at 1.14 million base pairs (Mb) and has limited metabolic capabilities, reflecting its adaptation through genome reduction to the rich environment of mammalian tissue.</p>
Form	70mM Tris-HCl pH 8.0, 50mM NaCl, 50% Glycerol, 1.5 M Urea.
Bio-activity	Immunoreactive with sera of Trp. Pallidum infected individuals.
Molecular Mass	48kDa
Purity	Treponema Pallidum protein is >95% pure as determined by SDS-PAGE.

 45-1 Ramsey Road, Shirley, NY 11967, USA

Storage

Treponema Pallidum protein although stable at 4°C for 1 week, should be stored below -18°C. Please prevent freeze thaw cycles.
